

Registration for both the First half and the Second half in Softball

- The teams which would like to participate in both of the first half (May 23 - 25) and the second half (May 27 - 29) are recommended to sign up for bulk registration. This allows teams to register for both the first and the second halves at the same time.
- To sign up for both the first and the second halves, a representative must select "**...../both halves**" from the categories which teams would like to participate, when a representative composes teams in the Entry System.
- Although a representative may sign up for the first half and the second half separately, teams may not be able to register for the competition days when the team capacity reaches the upper limit. In addition, please do not select overlapped competition days. Thank you.

e.g.) If your team would like to sign up for both the first and the second halves in the Competitive (women) / leather ball categories

Entry

Step.4 Events selection (events that have reached capacity are displayed in the "See all" column)

Events selection (events that have reached capacity are displayed in the "See all" column)

See all	Eligible for participation	Para events
---------	----------------------------	-------------

【Note】

- When participating only as a manager or a judge, the participant category "Player Entrants can be entered. In addition, if you are also a player, entry with a player is required.
- If you select "latter half first half", you can enter both the first half (5 / 23-25) and the second half (5 / 27-29) at the same time And you can. Use for teams that participate in both the first half and the second half.
- Either or both can be entered in the first half and the second half, respectively.Be careful not to select a schedule.
